

ACCESS simplicity.

An all-inclusive system that makes creating ID cards incredibly simple.

Now there's a no-headache way to help you produce great-looking photo ID cards: the Persona C30e Photo ID System. It's a complete, easy-to-use solution that includes a single-sided Persona C30e Printer/Encoder, fully featured Asure ID® Express™ photo ID software, USB digital camera, starter supplies and even a two-year printer warranty.

Simple to use from start to finish.

The Persona C30e Photo ID System gives you great results without the complexity of more advanced card identity systems. Setup is so easy you can do it yourself. The photo ID software and printing procedure take just a few minutes to learn. And the reliable performance of the Persona C30e Card Printer/Encoder means it produces card after card virtually maintenance-free.

Versatile, hassle-free card printing.

The Persona C30e prints on several different types of ID cards: the thin, flexible cards used for health care and transit systems; smart cards with embedded electronics; and even rewritable cards that help eliminate the waste of use-and-toss visitor badges and student IDs.

And working with the Persona C30e couldn't be easier. Its easy-loading, all-in-one ribbon cartridge saves time and eliminates the mess and expense of torn, wasted ribbons. Just remove the old cartridge, slide in the new one and you've changed both the printer ribbon and card cleaning roller in one simple step.

Room to grow.

While the Persona C30e Photo ID System includes everything you need to start making IDs, you can field-upgrade it with card encoding modules to fit specific applications. These optional modules let you encode contact and contactless smart cards (such as HID iCLASS®), plus proximity cards and magnetic stripe cards for access control systems.

Great results from the moment you open the box.

Creating photo IDs that are durable, secure and look great is not rocket science. For a money-saving, all-in-one solution that's simple right from the box, get the Persona C30e Photo ID System.

Persona C30e Photo ID System

The Persona C30e Photo ID System includes everything you see here.

- 1. Fargo Persona C30e Card Printer/Encoder.** Single-sided, edge-to-edge card printing. Full-color, continuous-tone printing at 300 dpi (11.8 dots/mm). Capable of rewritable card printing (monochrome only) on HID rewritable card stock. Can be field-upgraded to smart card, proximity and magnetic stripe encoding.
- 2. Asure ID® Express™ ID card design and production software.** Powerful, yet easy-to-use photo ID card software with advanced card design and batch printing capabilities. The C30e also comes with Workbench,™ a software toolkit for set up, printer diagnostics and firmware upgrades.
- 3. USB digital camera.** 1.3 megapixel camera makes capturing cardholder photos quick and easy.
- 4. Full-color ribbon cartridge** for printing 250 card images.
- 5. One pack of three card-cleaning rollers.**
- 6. 100 UltraCard™ PVC cards.**
- 7. USB cable** for connecting the Persona C30e to your computer.

The Persona C30e Photo ID System also includes:

- Two-year printer warranty.
- One-year free Asure ID software technical support.
